Subject: Potential AZ 404 State Assumption Draft Statutory Language

Hi Kathy,

Attached is ADEQ's preliminary draft statutory language for a potential state assumption under CWA 404(g). No decision has been made regarding whether to move forward with an assumption or legislation, but we have drafted language to be prepared in case of a decision to move forward. The attached language is intended to provide a basic structure of the program and enable most of the details of the program to be implemented through rulemaking. The legislative session begins in the first week of January so we are attempting to have your review at least before then, if not sooner. Do you think this is possible? Would counsel at Region 9 or HQ be reviewing? We appreciate any feedback you may provide.
